Dear FCC,

I am a subscriber to XM satellite radio. I own two units, one in each car. I subscribe to XM for numerous reasons, the most important being variety and service. I'm concerned that a quality service that I pay for, is under attack by an organization that has not served the public and is only interested in providing mediocre broadcasting.

I respectfully urge the FCC to reject the NAB's petition 04-160 as the XM Instant Traffic & Weather is a high quality public service second to none.
